Housing Element and RHNA Basics

Housing Element Basics

- A policy guide, part of the General Plan
- State law requires agencies to update Housing Elements by statutory deadline
 - October 15, 2021 (with 120-day grace period)
- Housing Element cycles
 - Existing: 2013-2021 (5th cycle)
 - Update: 2021-2029 (6th cycle)
- State Department of Housing and Community Development (HCD) reviews Housing Elements for compliance with State law

Housing Element Requirements

- **Accommodate projected housing demand mandated by the State through the Regional Housing Needs Allocation (RHNA)**
- **Increase housing production to meet demand**
- **Preserve existing affordable housing stock**
- **Improve the safety, quality, and condition of existing housing**
- **Facilitate the development of housing for all income levels and household types including special needs populations**
- **Affirmatively furthering fair housing**

Housing Element Contents

Housing Needs Assessment	Housing and demographic trends, special needs populations, affordable housing preservation
Resources and Opportunities	Adequate sites for Regional Housing Needs Allocation (RHNA), financial and administrative
Housing Constraints	Governmental and non-governmental
Housing Plan	Goals, policies, programs, and quantified objectives; review of previous housing programs
Evaluation of 2013-2021 Housing Element	
Sites Inventory and Analysis	Progress toward RHNA, sites, infill, inventory
Inventory of affordable units	Inventory of assisted units, units at risk
Fair Housing Assessment	Segregation, access to opportunities, displacement risks

Adequate Sites Analysis

- Identify vacant and underutilized sites with near-term development potential within 8 years
- Assembly Bill 1397 Adequate Lower Income Sites Analysis
 - Default density: 30 dwelling units per acre
 - Size: at least 0.5 acre but not larger than 10 acres
- Senate Bill 166 No Net Loss
 - Applies to lower and moderate income RHNA
 - Agencies must maintain adequate sites to accommodate remaining unmet RHNA by each income category throughout the entire planning period.
 - Department of Housing and Community Development recommends applying a buffer of 15-30% to the number of units allocated.

Regional Housing Needs Allocation

- Minimum number of housing units each community is responsible to accommodate.
- Two separate requirements:
 - Adequate sites analysis at the time of Housing Element adoption
 - Must demonstrate adequate sites for Regional Housing Needs Allocation by income level
 - Production during 8-year planning period
 - Production objectives based on resources
 - Good faith efforts

Regional Housing Needs Allocation

Draft Housing Element Review

Meeting the RHNA

Selecting Sites for RHNA

- Housing Element Sites Inventory is NOT the universe of all sites that may be redeveloped
- Sites not identified in the Sites Inventory can be developed according to GP and Zoning
- AB 1397 sets strict standards for lower income RHNA
 - Maximum density must be at least 30 dwelling units per acre
 - Sites must be at least 0.5 acre
 - Sites requiring rezoning after October 15, 2021 – must be able to accommodate at least 16 units on site
- Cannot factor in density bonus or inclusionary housing units
- Objective criteria for selecting potential sites
- Distribution of sites throughout the community
- Multiple strategies for reaching the RHNA
 - ADUs
 - Pipeline projects
 - Incremental infill
 - Opportunity sites
 - Intensifying existing multi-family neighborhoods
 - Integrating residential uses in commercial areas

Incremental Infill – Two Potential Scenarios:

- **Conversion and/or Addition**
 - Essentially an ADU scenario
 - State law does not allow estimating RHNA units based on capacity
 - Based on a trend of 50 units per year, inflating to 75 units per year due to incentives
- **Redevelopment**
 - 5,598 parcels meet 4,950-square-foot threshold
 - Eliminate parcels based on:
 - Existing uses
 - Age of structure
 - Improvement to land ratio
 - Existing floor area ratio
 - Net increase
 - 1,410 eligible parcels remain
 - Assume 15% to be redeveloped

Intensifying Existing Multi-Family Neighborhoods

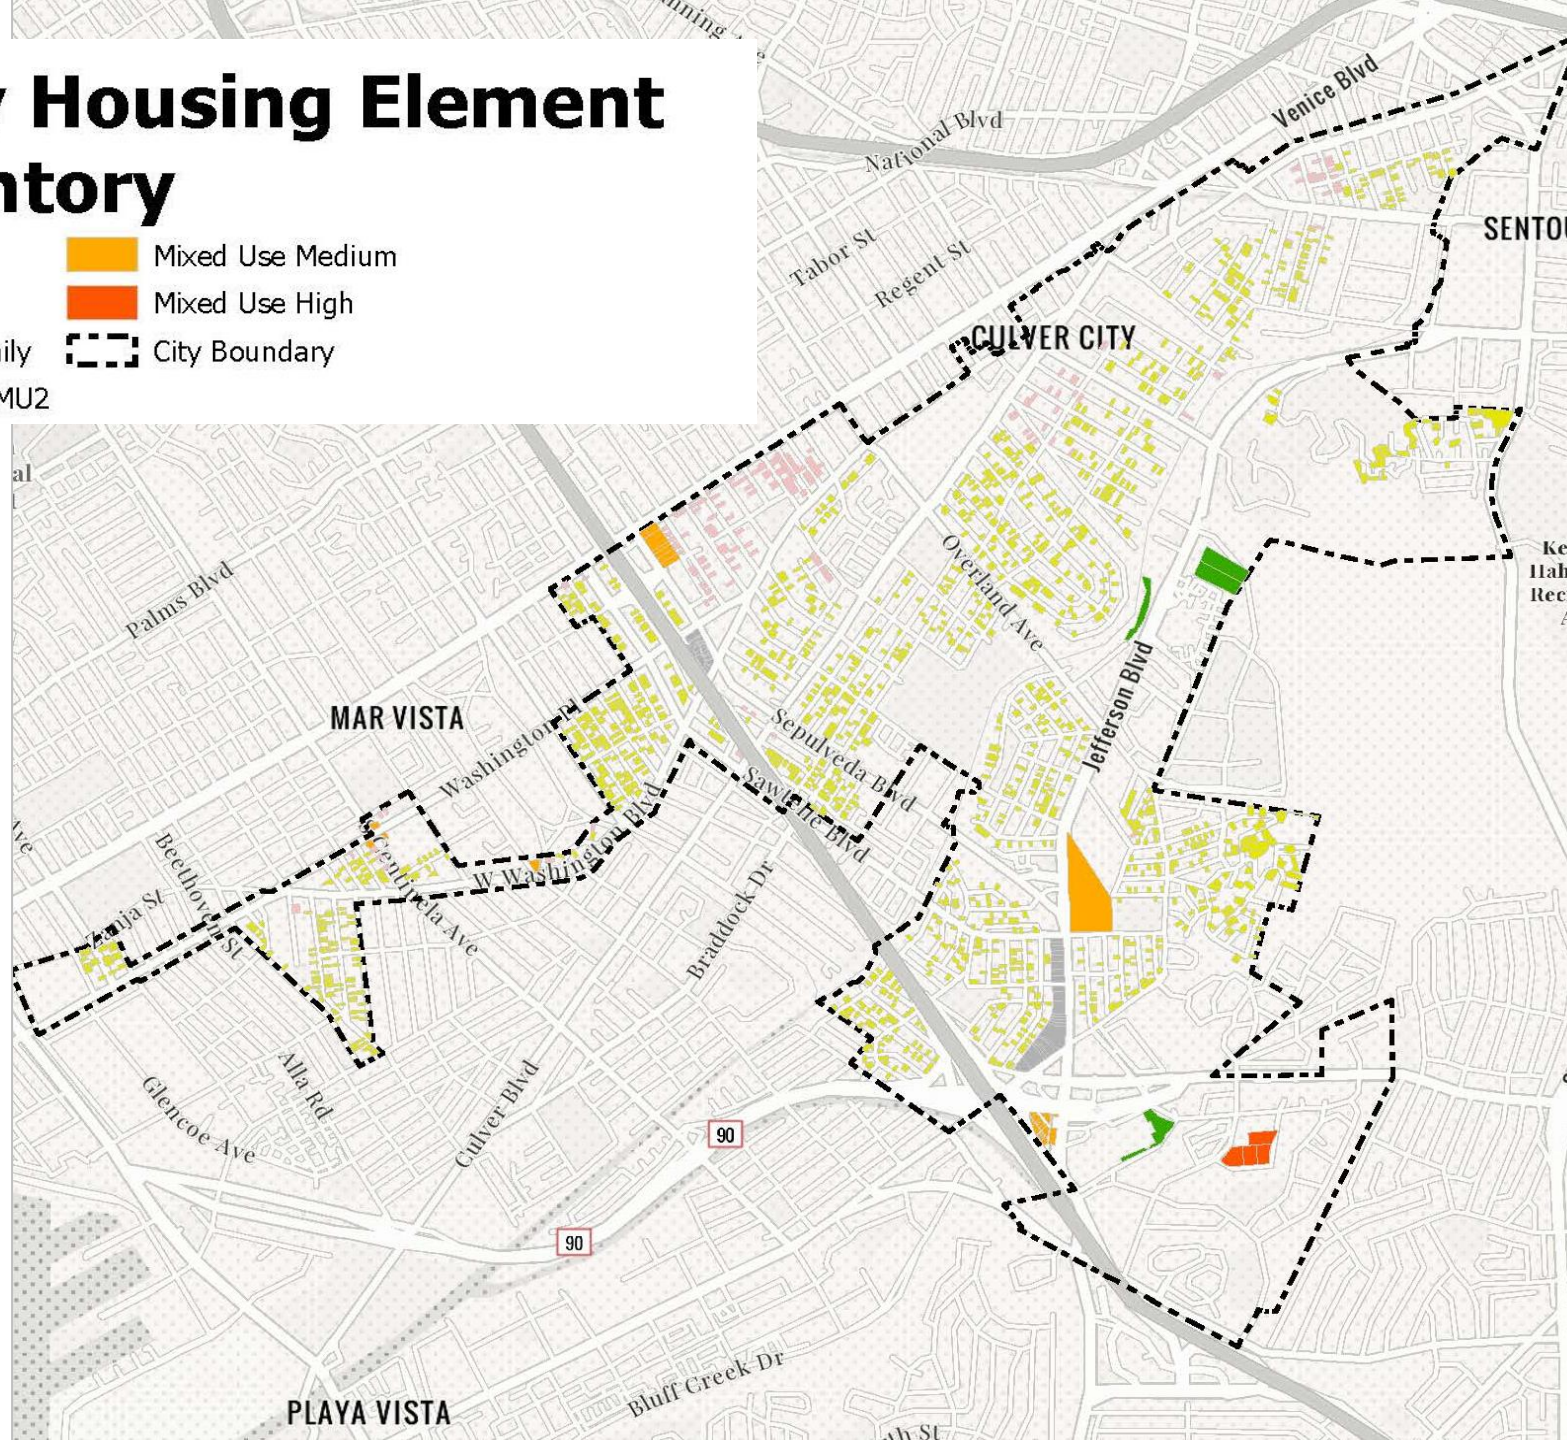

- **Land use designations**
 - Corridor Multi-Family (30 dwelling units per acre)
 - Neighborhood Multi-Family (50 dwelling units per acre)
- **Criteria used for screening**
 - Existing use
 - Age of structure
 - Improvement-to-land ratio
 - Increase is at least 4 times the existing number of units on site
 - 162 parcels but not all with consolidation potential to 0.5 acre

Integrating Residential Uses in Commercial and Industrial Areas

- **Land use designations**
 - Neighborhood/Corridor Mixed Use (50 dwelling units per acre)
 - Mixed Use Medium (65 dwelling units per acre)
 - Mixed Use High (100 dwelling units per acre)
- **Criteria used for screening**
 - Existing use
 - Age of structure
 - Improvement-to-land ratio
 - Existing floor area ratio

Culver City Housing Element Sites Inventory

- Incremental Infill
- Opportunity Sites
- Neighborhood Multi-Family
- Neighborhood/Corridor MU2
- Mixed Use Medium
- Mixed Use High
- City Boundary

Housing Goals

- **Goal 1:** A city that proactively provides equitable access to affordable housing for all income levels and one that has multiple programs to address the housing needs of persons experiencing homelessness and special needs populations.
- **Goal 2:** A city with a variety of housing opportunities that complement and enhance the city's goals for continued economic vitality and prosperity.
- **Goal 3:** A city that plans to grow sustainably and intelligently by revisiting policies and programs frequently to update and adjust if they are not meeting goals.
- **Goal 4:** A city that affirmatively furthers fair housing to reverse the legacy of segregation and provide housing and opportunity for historically disenfranchised groups.

Housing Objectives

Objective 1. Housing Maintenance. Encourage a high level of housing maintenance to promote the availability of decent housing and to protect the quality of neighborhood environments.

Objective 2. Housing Supply. Expand opportunities for developing a variety of housing types.

Objective 3. Housing Affordability. Provide rental and ownership housing opportunities that are compatible with the range of income levels of Culver City residents.

Objective 4. Housing Access. Improve access to quality housing for all members of the community by eliminating discrimination, reducing physical constraints, increasing the number of affordable housing units, and supporting access to emergency shelters.

Objective 5. Housing Production Accountability. Monitor housing production effectiveness throughout the planning period and adjust as necessary.
